

1. FAMILY OFFICES & FundForum International, 11-13 June 2018, Berlin

Markus Hill Services-Family Offices-Panel discussion, June 12, 2018 at 12:30 - 1:00PM

Family office and HNW investors on the management of impact and other illiquid / liquid ESG strategies in the portfolio. How does this impact the overall asset allocation?

Family offices and HNWIs are strongly engaging with topics such as ESG / Impact Investing in product due diligence and direct investments.

- What challenges investors encounter?
- Are there any differences or an advancement to due diligence for “traditional” funds versus venture capital, private equity and direct investment? What are the experiences so far in the product selection procedure?
- What significant role will ESG play in family office investments in the future?

Thomas Rüschen, Deutsche Oppenheim Family Office AG

Antje Biber, FERI Trust

Christoph Kind, Marcard, Stein & Co.

J. Christian Stadermann, Logos Patrimon

FundForum International, 2017 Berlin - last year our panel discussion was on special focus:

Family offices in search of an alignment of interests - Co-investing in fund boutiques, impact investing and other compelling strategies.

It was a stimulating session resonating to a proactive Q & A participation of the audience, therefore already looking forward to FundForum International 2018, Berlin.

FundForum International 2018

2. MH-Family Offices-Panel, Frankfurt am Main - Family Offices als Asset Manager: Können sie es besser?

funds excellence 2018

Markus Hill is an independent asset management consultant based in Frankfurt, Germany. He focusses on the selection of funds and on pre-checking new fund concepts for investors. In this context, Mr. Hill specializes in due diligence and the different strategies of German fund selectors and fund providers. Furthermore, he was the Co-Initiator of the first all-German Consultant survey in 2005 and the first "UCITS-survey" in 2003. Thanks to numerous publications, he has become a highly recognized expert in the German asset management industry. "Industry multiplier" is a term often used by journalists and clients to describe his style and personality. (Private Wealth Germany Forum, Munich, 2017)
